Projects _____

QKART FRONTEND

Skills: React, React Router, Material UI, Responsive Design, localStorage, REST API, Debouncing, Event Handling, Error Handling.

- Implemented the core logic for **authentication, shopping cart** and **checkout** of an E-Commerce application with popping messages using **notistack** snackbars
- Improved UI by adding responsive design elements for uniform experience across different devices
- Utilized **REST APIs** to load and render data served by the backend server
- Loading the products, add to cart and checkout page as per authorization with search bar using **debouncing**

QTRIP

Skills: HTML, CSS, JavaScript, Bootstrap, Fetch API, localStorage, Conditional Rendering, DOM Manipulation, REST APIs.

- A travel website made using **HTML, CSS, Bootstrap**, and **JavaScript** that can be used to browse different cities, and adventures and make reservations
- Improved UI/UX with multi-select filters, forms, image carousels, and conditional rendering of page elements
- Utilized localStorage to persist user preference at client-side and facilitated reservation form submission using fetch API
- Deployed the website using **Netlify** for Frontend and Render for Backend

XBOARD

Skills: HTML5, CSS3, Bootstrap, Figma, JavaScript, JQuery

- Created web page for **XBoard**, to show news articles
- Invoked **API** to fetch the necessary data from Flipboard's RSS feed and integrate that into the web page
- Developed the desktop and mobile views with reference to the **Figma** design
- Enhanced the user interface by setting each section into an accordion style and incorporating image carousels
